Fantasy baseball is a pastime where people supervise fake baseball teams founded on the live behavior of baseball players, and face against one another using those players' points to score points. fantasy baseball is the original form of fantasy sports, and arguably one of the most difficult and time consuming due to the 162-game season of the MLB and the irregularity of players. Fantasy Nascar is the the newest sport to be added to the Fantasy Sports line up. While not as accepted as the other Fantasy Sports, fantasy nascar is advancing at a rapid pace.
